

Space Inner Product

Why

We want to measure angles in space.¹

Definition

The $space\ inner\ product$ (or $dot\ product,\ scalar\ product)$ of two real vectors $x,y\in\mathbf{R}^3$ is

$$x_1y_1 + x_2y_2 + x_3y_3$$

Notation

We denote the inner product of x and y by $\langle x, y \rangle$.
