

## REAL ORDER

## Why

We want to order the real numbers.<sup>1</sup>

## **Definition**

Let  $R, S \in \mathbf{R}$ . If  $R \subset S$  and  $R \neq S$  then we say that R is less than S. If  $R \subset S$  then we say that R is less than or equal to S.

## Notation

If R is less than S we write R < S. If R is less than or equal to S we write  $R \le S$ .
