Statements
Logical Statements
Quantified Statements
Deductions
Set Inclusion
Set Equality
Set Specification
Unordered Pairs
Empty Set
Set Differences
Set Unions
Pair Intersections
Pair Unions
Set Complements
Set Intersections
Set Unions and Intersections
Partitions
Set Duality
Intersection of Empty Set
Set Symmetric Differences
Successor Sets
Unordered Triples
Generalized Set Duality
Natural Numbers
Ordered Pairs
Set Powers
Subset Systems
Set Products
Characteristic Functions
Natural Induction
Uncertain Outcomes
Ordered Pair Projections
Peano Axioms
Recursion Theorem
Natural Sums
Relations
Natural Products
Equivalence Relations
Converse Relations
Functions
Integer Numbers
Natural Order
Natural Powers
Equations
Uncertain Events
Integer Sums
Natural Equations
Orders
Integer Products
Integer Order
Comparisons
Natural Arithmetic
Identity Elements
Function Inverses
Equivalent Sets
Natural Additive Identity
Natural Multiplicative Identity
Element Functions
Integer Arithmetic
Natural Fractions
Rational Numbers
Optimizers
Rational Order
Real Numbers
Rational Sums
Rational Products
Rational Arithmetic
Rational Multiplicative Inverses
Real Optimizers
Real Order
Real Sums
Real Products
Real Additive Inverses
Square Numbers
Number of Disjoint Unions
Natural Square Roots
Real Multiplicative Inverses
Number of Set Products
Real Arithmetic
Real Squares
Real Functions
Real Linear Functions
Simple Functions
Outcome Probabilities
Event Probabilities
Fields
Real Square Roots
Simple Integrals
Exponential Function
Induced Probability Distributions
Outcome Variable Expectation
Nonnegative Integrals
Real Integrals
Real-Valued Random Variable Expectation
Transformations
Outcome Variable Covariance
Real Integral Additivity
Real Integral Homogeneity
Simple Integral Homogeneity
Simple Integral Additivity
Real Polynomials
Vector Space of Polynomials
Real Polynomial Derivatives
Linear Transformations
Derivatives of Scalar Multiples
Derivatives of Sums
Real Differentiable Functions
Real Linear Equations
Real Linear Combinations
Real Vectors Span
Real Matrix Determinants
Vectors as Matrices
Real Matrices
Real Matrix-Vector Products
Data Matrix
Real Matrix Trace
Matrix Transpose
Real Matrix-Matrix Products
Real Matrix Inverses
Real Positive Semidefinite Matrices
Symmetric Real Matrices
Quadratic Forms
Multivariate Normals
Maximum Conditional Estimates
Least Squares Linear Regressors
Estimators
Conditional Densities
Regressors
Normal Densities
Real-Valued Random Variable Variance
Probability Densities
Linear Transformations
Normal Conditionals
Feature Maps
Probabilistic Errors Linear Model
Random Variable Moments
Covariance
Normal Linear Model
Probabilistic Linear Model
Interpolators
Normal Linear Model Regressors
Real Vectors
Arrays
